

Entrepreneurial Design Thinking

Accredited Professional Learning for Teachers

Entrepreneurs drive innovation, the economy and social change. How can we harness their methods, mindsets and motivations to better prepare young people for the jobs and challenges of the future?

In these interactive professional learning workshops, educators and leaders will gain the knowledge, skills and confidence to incorporate innovation and entrepreneurship into everyday teaching practice and learning activities across curriculum and year levels.

Explore contemporary methodologies to use in the classroom, and learn how to lead sustainable change in your school.
