

# Creative Changemakers

*A complete entrepreneurial program for students supported by accredited Professional Learning for teachers*

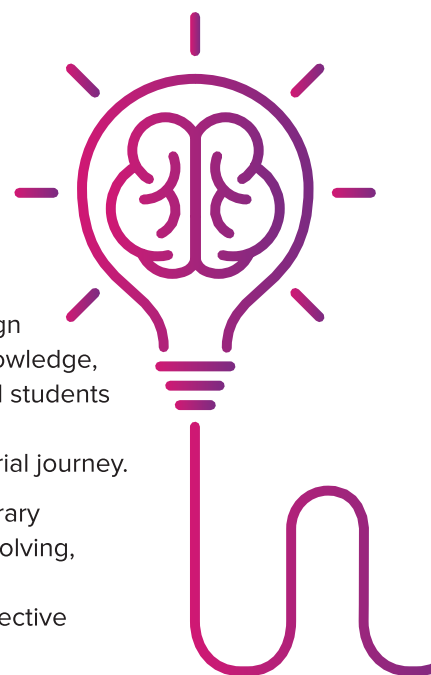

**Entrepreneurs and Changemakers drive innovation, the economy and social change. How can we harness their methods, mindsets and motivations to better prepare young people for the jobs and challenges of the future?**

This curriculum mapped entrepreneurial education program is a complete package comprising:

- Accredited professional learning for teachers
- Ten digital student learning modules complete with comprehensive step by step guides, lesson plans, tools, activities and instructional videos
- Compatible with Problem Based Learning
- Facilitates school-based community projects

Teachers increase their understanding of entrepreneurialism, the design process and develop the knowledge, skills, and confidence to lead students through their own Creative Changemakers entrepreneurial journey.

Students develop contemporary enterprise skills in problem solving, critical and creative thinking, design, collaboration and effective communication.

## Student Outcomes

- Identify personal motivations, strengths and interests
- Work in teams and collaborate with others
- Investigate local/global problems and issues with respect to interests and/or study area
- Learn design thinking and problem-solving methods
- Ideate, design and test solutions
- Create and share presentations on their findings

## Curriculum Links

Australian Curriculum Year 7- 9 Humanities and Social Sciences, Careers, Cross-curriculum Priorities, General Capabilities.

## PROGRAM OVERVIEW

The program begins with the study of the importance of personal interests and attributes as a foundation for student agency and project/problem area selection. Students work both independently and as part of a team. They identify problems and community-based issues and work through contemporary methodologies, to generate and evaluate solutions which they test in the real world. The course concludes with the delivery of the Upstart ProPitch to effectively communicate their business concepts/community solutions.

### Key learning areas and capabilities from Victorian and Australian curriculum

Builds on students' interests, strengths, goals and learning needs and addresses the cognitive, affective, physical, social and aesthetic needs of students

Designed to help students to become successful, learners, confident and creative individuals and active and informed citizens

Inclusive for all students and diverse learning needs students with disabilities, gifted and talented and English as an additional language or dialect

### About Upstart

Since 2012, Upstart (a non-profit and registered charity) has been equipping young people with future-facing skills, knowhow, connections and entrepreneurial mindsets.

**We challenge them to be resilient problem solvers, creative thinkers and intuitive communicators who know the value of failing fast, failing often and bouncing back. We give them what they need to create their own jobs of the future – mentoring, education, networks and experience. And we inspire them to have a go!**

We're building a culture where young people believe in themselves and their ability to build their own successful careers.

Upstart alumni are empowered, confident and uniquely skilled changemakers who influence their families, communities and economies for the greater good.

## What teachers are saying about this course

"A fun and engaging program that will not only give you great teaching content, but will also get your students thinking outside the box."

"A really useful program that develops life skills through innovation."
